

America's 2nd Declaration Of Independence

July 4, 2012

~ Preamble ~

With all the elections and all the noble efforts for the last 50 years, our country is worse off than ever and there is a very simple reason for this; We have never identified the real problem. Forget Ideologies and Parties. The 2nd Declaration names the real despot - lists the grievances and declares the freedoms from the Oligarchy that now rules our country. Of course some will say that we are dreaming with this new Declaration and that it can never happen. Well then that makes it even that much more like the Original.

...endowed by their Creator. Men, deriving their just and to institute new laws. Prudence, indeed, we disposed to suffer, while we are the same Object of their animosity. America's 2nd Declaration Of Independence

July 4, 2012

As was the desire of our Founding Fathers for Independence in 1776, so it is the desire and the obligation of We The People in The Year of Our Lord 2012 to Declare Independence from the privileged class that has taken control of all three branches of government and rendered our Republic an Oligarchy in direct violation of The Declaration of Independence and The United States Constitution.

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed.

That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government.

Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpation, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security."

Such has been the patient sufferance of the citizens of The United States and such is now the necessity which constrains them to restore these United States to the form of government as established and mandated in The Constitution of The United States of America.

The United States Constitution is the foundation of the law upon which our country is based and the rock upon which an unequaled prosperity for our citizens has been achieved for over two hundred years. To part from this successful formula could only be imagined by a self serving individual or group of individuals who have no respect or concern for the sacrifice of our founding fathers, the sacrifice of our heroic veterans, nor the love and patriotism of the vast majority of the citizens of The United States.

Today the rights, privileges and freedoms of the Constitution have been prostituted, polluted, trampled upon, distorted, re-defined and corrupted in a giant law factory created by and for the benefit of the lawyer culture - and we see the tragic results all around us.

The myriad of economic problems, the loss of individual freedoms and the deterioration of the American spirit over the last few decades, is in direct relationship with the proliferation of a lawyer class occupying the majority of public office and controlling all policy and law making apparatuses of our government.

In 1950, Washington D.C. had 1000 lawyers. In 1975 it had 11,000. By the mid-1990s, the number of lawyers had ballooned to approximately 65,000. By December 2009, the estimate had grown to 80,000 representing over 15% of the entire population of Washington D.C. America now has over 70% of the lawyers in the world. One lawyer for every 250 citizens versus one lawyer for every 24,000 people in the rest of the world. Over 15 million lawsuits filed annually. That works out to one new lawsuit every two seconds!

§ ----- §

With the control of all three branches of our Federal and State governments by this single and specific group, there has been established a ruling class that has altered the former Systems of Government from a Republic to one of an Oligarchy. The history of this usurpation of power by a lawyer class has presented us with the establishment of an absolute Tyranny over the 50 States of The Union.

To prove this, let Facts be submitted to a candid world.

A. The growth and control of a 'Lawyer Class' in America has spawned an endless amount of laws and regulations that have resulted in the loss of freedoms unimagined by our forefathers and in direct conflict with the spirit and the intent of The Declaration of Independence and The Constitution.

B. A lawyer is trained that there is no right and wrong behavior, but only legal and illegal behavior. The declining values that follow this training are soon reflected in how we are governed and the very nature and morality of American culture.

C. The proliferation of the number of lawyers in America has created a need for an ever growing revenue stream producing a 'Lawsuit Industry' that is among the most profitable industries in America. This ever growing 'industry' represents the least productive and indeed most destructive enterprise in America with frivolous and class action lawsuits that have made billionaires of unscrupulous lawyers while bankrupting American companies and at times driving otherwise noble American citizens to suicide after losing their business and destroying a lifetime of work and savings. Any reform has been and is impossible with lawyers dominating and controlling all three branches of government.

D. The proliferation of lawsuits that seek jury awards in place of justice and accountability has deteriorated the American character from one of self responsibility and a 'can do' attitude to one of an unaccountable victim-hood and a 'can sue' grab for money at the prompting of an ever revenue hungry growing number of lawyers. Any reform has been and is impossible with lawyers dominating and controlling all three branches of government.

E. The traditional family has been the bedrock of any civilized society since the beginning of recorded history. Through their control of the legislative and judicial process, the lawyer class has managed to degrade and deteriorate the traditional American family by way of a 'divorce industry' that destroys marriages beyond repair and tears children away from the love and upbringing that only a nuclear family can provide. Any reform has been and is impossible with lawyers dominating and controlling all three branches of government.

F. Doctors and Medical Facilities have had to inflate their costs and provide unneeded services in order to meet the ever lingering threat of lawsuits seeking money rewards for any deviation from perfection that a trial lawyer can present before a lawyer judge and a manipulated jury in a courtroom. The decimation of America's world envied medical system is only a matter of time as doctors and medical facilities quit and close down in the wake of these 'malpractice' lawsuits. Any reform has been and is impossible with lawyers dominating and controlling all three branches of government.

G. The monopolistic and self serving activities of the State Bars have caused any realistic accountability or punishment of lawyers and the legal profession unattainable. Lawyers and their associations are thus exempt from punishment from many of the laws that govern other associations businesses and the citizenry. This is in direct conflict and defiance of the principle of 'Equal Protection Under The Law' as stated in the 14th Amendment to the Constitution. Any reform has been and is impossible with lawyers dominating and controlling all three branches of government.

§ ----- §

H. Because of their control of all three branches of government and the lack of accountability that is derived from this influence, judges, both State and Federal are now creating laws by way of judicial activism and by a lawyer created instrument called 'case law' directly in violation of Article 1 of The United States Constitution.

I. A lawyer's training and developed habits in his work do not serve the people. A lawyer usually only considers what the law says, ignoring cost and common sense. As a lawyer is paid by the hour, his habit of passing laws in Congress which are complex, ambiguous, and inefficient to administer profits his profession greatly - as does his habit of increasing conflict among differing parties. These are indeed not the characteristics of a representative and lawmaker needed to advance and insure our Republic and the freedoms of it's people.

J. The judicial system of America is dominated and controlled 100% by lawyers and the Bar Associations that they belong to. They have passed their own laws and regulations that insure their monopoly on 'our' judicial system. Corruption amongst the members of the Bar is mostly adjudicated by the Bar itself. The result is that less than 2% of complaints ever receive any formal prosecution. Such disregard for the law by a specific group of people would normally be prosecuted under The Racketeer Influenced and Corrupt Organizations Act (RICO Act). And any other profitable business or organization operating with such monopolistic power would have been long ago dismantled under existing anti-trust laws. Any reform has been and is impossible with lawyers dominating and controlling all three branches of government.

K. Among the numerous unconstitutional practices in the Judicial Branch is the 100% occupation of judgeships by lawyers. No where in The Constitution is it mandated or even implied that a magistrate charged with the administration of justice has to have been a lawyer. The wisdom and common sense of a vetted citizen would not only be more equitable but it would provide a quality and confidence in a monopolistic system that has deteriorated to the point of no return under 'the current management.' Any reform has been and is impossible with lawyers dominating and controlling all three branches of government.

L. The Supreme Court in 1803 in deciding a case called 'Marbury v. Madison' usurped the power to be the final arbitrator of defining the meaning of The Constitution. Thomas Jefferson strongly disagreed noting that nowhere in the Constitution was The Court given this absolute power. Jefferson was prophetic when he warned then that if this view of judicial power became accepted, it would be "placing us under the despotism of an oligarchy." Later in 1857 Abraham Lincoln said that "the idea that 9 people (9 lawyers on the Supreme Court) could make the law means that freedom for the rest of us would be eliminated." He repudiated the Supreme Court's decision in the Dred Scott case saying that a Supreme Court decision "is not the law of the land, it is the law of that case. The Court does not have the power to create the law of the land." Indeed two of the greatest men in our history foresaw the destruction that this 'Supreme' Court could bring. Only those in the lawyer class would have the arrogance to dispute the wisdom of two such men.

On January 22, 1973, some 170 years after Jefferson warned of giving such power to The 'Supreme' Court, The 'Supreme' Court ruled that it is "constitutional" for a 'mother' to kill a baby before it is born just because she so chooses; no other reason is needed. A legalized death sentence by 7 lawyers in black robes to the most innocent of God's children, the unborn baby. Since then, over 54 MILLION babies have been killed! 54 MILLION Americans denied Life, Liberty and the Pursuit of Happiness. An abomination and a disgrace to our great country that respects life more than any other ever has.

In reflecting on this inhumane decision by 7 lawyers in 1973, any sane human being must realize that if killing the most innocent of all life was legal, than indeed nothing else could be illegal.

If the most sacred and most precious cornerstone of civilization did not require the protection of law, than the very foundation of the proscribed purpose of human law was null and void along with all existing laws that it supported.

The mindset that could produce such a decision could only come from a person void of the compassion that usually dominates a human soul. The fact that it came from 7 such persons and they were all lawyers is reason by itself to rid the courts and the government from any influence or control by this lawyer culture.

§ ----- §

The facts as stated above are but a very minute representation of the injustices and the inequities that have proliferated under the Oligarchy of lawyers now ruling America. The list of grievances over the last few decades grows beyond including in any one document or even a book. The multitudes of factual references and support of these grievances is easily available to anyone via the Internet.

Many noble and patriotic citizens, groups and organizations have attempted to correct this lethal infection of the government for decades with little to no success. Thousands if not millions of Americans, and yes even patriotic lawyers, have labored for years and spent their own savings in a vain attempt to restore our Constitution and the Republic form of government that it structures. The efforts of all of these patriots have been in vain. Greed and the thirst for power by a lawyer culture has prevailed. This is to be expected when lawyers make the laws, interpret the laws, administer the laws and enforce the laws.

The lawyers have dominated our government and have been in charge for decades. The result is that a once great nation and the envy of the world, is now on the brink of bankruptcy and a cultural mess that shares no resemblance to the great Judeo - Christian foundation upon which America was built and prospered.

§ ----- §

We are not in 'uncharted waters' in calling for the prohibition of lawyers from government. In deference to the genius of the Founding Fathers, a little known historical fact is that The Original Thirteenth Amendment (Amendment XIII) of the United States Constitution was enacted by Congress on May 10, 1810 and it established a prohibition of lawyers serving in public office.

It is also known as The Titles of Nobility Amendment. In simple terms; it prohibited persons with "titles of nobility" from being in public office. Lawyers were then known as 'barristers' and having derived the tradition from England, they were considered 'noble men' and part of an upper class in England. Their position of 'nobility' made them suspect as to their qualification in making decisions in a new government where the very premise was that 'all men are created equal.' So the purpose of this 13th Amendment was explicitly to prohibit, among other 'nobles', lawyers from serving in public office in America.

It was not until after the Civil W and after the disappearance of The Original 13th Amendment, that American Bar Associations began to appear and exercise political power.

So in their wisdom, the Founding Fathers foresaw the potential problem which today has produced the Oligarchy which now controls our country.

§ ----- §

Article I of The Constitution defines the Separation of Powers in our government. This separation of powers serves several goals. Separation prevents concentration of power (seen as the root of tyranny) and provides each branch with weapons to fight off encroachment by the other two branches. With the domination of lawyers occupying the majority of public offices and support systems in all three branches of government, this Constitutional safeguard has been breached by a specific and now all powerful group of people.

“The accumulation of all powers, legislative, executive, and judiciary, in the same hands, whether of one, a few, or many, and whether hereditary, self-appointed or elective, may justly be pronounced the very definition of TYRANNY.” - James Madison, Father of The Constitution

With lawyers dominating all branches of government, we thereby have the very definition of tyranny.

In order to restore our country and avoid an impending demise, we need to dismantle the lawyer Oligarchy and replace it with true representatives of the people. Indeed - "We The People."

In order to achieve this end, and in order to accomplish this through non-violent means, We The People of The United States of America pledge to restore Constitutional Law, Financial Security, Creative Spirit and the Exceptional Character of our nation by of dismantling the existing ruling class of lawyers.

Our Founding Fathers pledged their lives, their fortunes and their sacred Honor. They fought a great Revolution against all odds with the most powerful country of the day. They prevailed and created the greatest nation known to mankind. And since then, millions of young Americans have fought and died to preserve our freedoms and the future of this country.

We are forever indebted to these great patriots. Our fight for Independence today is simple and direct. There need be no sacrifice. There need be no loss of fortune or Honor. There need be no bloodshed.

Divine Providence once again shines its favor on our land. Our Founding Fathers had the wisdom and foresight to provide us with a weapon to fight tyranny in a way the original colonists could only dream of.

This weapon is called 'The Ballot Box.' Placed in the hands of the people, and at a time before the usurpers of government can dismantle it, this is the weapon that can restore our Independence without a shot fired.

§ ----- §

Therefore We The People of The United States of America do here and now, on this 4th Day of July in the Year of Our Lord 2012, do solemnly pledge that

We will not vote for any candidate to any public office or judgeship that is an attorney.

We will abolish The Supreme Court in its present form and and reconstruct it under the spirit and guidance of The Constitution. In deference to The Creator, who is the only 'Supreme' decision maker, the name will be changed to 'The High Court.' The nine members will be distinct members of society including one doctor, one non-denominational preacher, one mother with children of school age, one father with children of school age, one scientist, one historian, one business person, one retired teacher, and one war veteran. Each will serve one term of 6 years and will be selected by The President. The High Court will no longer have the power of judicial review in cases concerning the Constitutionality of a law except as outlined below. It will have the duty to interpret the Constitutionality of a law but only prior to a new law being passed by the Congress. At any juncture in the legislative process, The High Court will be obligated to review any pending legislation and if needed rewrite the law so that it meets with the approval of the Congress and is within the Constitutional parameters as they see it. Any legislation that is necessary and that is found to be outside of the Constitution parameters, will require a Constitutional Amendment. Thus the Constitutionality of any new law is decided before the law is enacted. There can be no challenge in any court. The only time The High Court can determine the Constitutionality of existing law is if and when a vote of Congress determines that an established law, whose constitutionally was reviewed prior to the establishment of The High Court, is in conflict with the national conscience. In the absence of a decision, The High Court may choose to select a Referendum, to be voted on in the next national election, as the means that would serve the people best in arriving at a final decision as to Constitutionality of existing law or pending new legislation.

We Will Restore the Constitution as the Governing Document Upon Which American's Government is Based. As was stated in Article 1 Section 1; '*All legislative Powers herein granted shall be vested in a Congress of the United States.*' There is no provision for any other Branch to make or create law. Be it State or Federal, 'Case Law' and 'Judicial Decree' will only have standing in the individual cases upon which the decision rests. They will have no standing to parties outside of said case or in any other American courtroom.

We Will Restore the Doctrine of Separation of Powers and pass legislation to insure its longevity against those tyrants who would take advantage of a lethargic electorate.

We Will Restore the Quality and Respect of The Judicial Branch by returning control of our Judicial System to the citizens who pay for it and for which it must benefit. Chief among this will be the installation of Citizen Judges to replace the lawyer-judges and the inauguration of The High Court as put forth above.

We Will Restore The Confidence and Respect of Our Laws by Legislating Tort Reform. The current system and misuse of law has created a 'lawsuit factory and cash cow' for lawyers out of what once was a System of Justice we all respected. Tort reform will address the outstanding issues like malpractice, class actions, divorce, personal injury and frivolous lawsuits. Sweeping Tort Reform laws will be enacted by Congress and validated by The High Court within 1 year from the Inauguration of this Declaration.

We Will Restore Respect and Reaffirm The 14th Amendment of Equal Protection Under The Law. No member of the government or elected representative will be exempted from any State or Federal laws. Our Constitutional laws and guarantees govern only legal citizens of The United States. Non-citizens and foreigners are governed under Federal Statutes and State laws when within the borders of The United States.

We Will Restore the Government to a Republic governed by true representatives of the people and not by any privileged group. In order to achieve this true representation and to restore parity and confidence in our elections, both state and federal:

1. All government elections will have a financial cap on moneys spent by the candidates. This financial limit will be relative on a sliding scale with the lowest amount fixed for the position of City Mayor to the highest amount fixed for President of The United States.

2. All elected representatives holding public office and any government administrators, judges, ambassadors or employees can only receive any retirement benefits after serving no less than 25 years in government whose position(s) received compensation emanating from taxpayer dollars. Pension amounts will be in line with the private sector and will be determined on a relative scale with the highest paid qualifying government positions receiving the lowest amount and American war veterans receiving the highest pensions.

3. Upon inauguration and for every 12 years following, The High Court will determine the structure and the details of election caps and any and all taxpayer paid pensions.

4. An Elections Commission comprised of an equal representation of Congressman from all political parties, will have the mandate to review and approve or disprove any and all political advertisements by those candidates running for State Governor, Congressmen, Senator and President. This commission will also review all current election laws and produce an updated law that resolves and insures the qualifications and the perimeters within which the American citizens voting rights are delineated.

5. Term limits will be set as such: Congressmen - 4 years, Senators - 6 years, President – 6 years. Election cycles will remain and re-election at anytime is prohibited.

And Finally: We Will Honor Our Veterans as They Honored Our Country. It is a sign of an unappreciative Nation that those who sacrifice the greatest for our country should ever be in need of any charity or lack any necessary comfort. The establishment of private citizen groups that provide benefits for our veterans is certainly praiseworthy. The fact that our government sends money to other countries while our veterans must rely on charity is a national disgrace.

Therefore, other than in the case of a national natural tragedy, there will be no funds or supplies or compensations of any kind provided to any country unless first it is confirmed by The High Court that any and all of the physical needs and necessary comforts of our war veterans is satisfied.

We Will Get Our Culture and Our Country Back and We Will Restore The Character, The Class, and The Glory That is The United States of America.

And for the support of this Declaration, with a firm reliance on the protection of divine Providence

And to qualify these declarations and construct them within the foundation of our government, this document will be adopted and added to The United States Constitution as Amendment No. 28 and titled 'The Restoration Amendment'.

We pray that once again, As President Lincoln so eloquently stated during the great civil war; ... this nation, under God, shall have a new birth of freedom -- and that government of the people, by the people, for the people, shall not perish from the earth.

In witness whereof We Have Hereunto Subscribed our Names

We The People of The United States of America
